

COURSE RECOMMENDATIONS

These courses are recommended for technicians to take on DMP University to have a basic knowledge of DMP product programming and installation. Not all products will be used by your alarm company.

GET TO KNOW DMP

DMP Mission & Values Videos

Visual interpretations of our Mission and Values described by our CEO and founder Rick Britton.

GETTING STARTED

Intro to Alarm Systems

Introduces those not familiar with alarm systems to how they work.

Basics of Networking

Introduces those not familiar with networking to the terms and concepts of networking.

INTERACTIVE DMP PRODUCT COURSES

This course walks through the installation and programming of DMP XR150/550 panels.

XR Series Access Control Basics

Installation & programming of Access Control on XR150/550 panels

XT Series Basics

The XT Series Course walks through installation and programming procedures of DMP XT Series control panels.

XTL Series Course

Installation and Programming the XTLplus or XTLtouch.

1100 Series Wireless

Walks through our 1100 series wireless and the recommended installation practices of it.

Virtual Keypad: Set & App Overview

Learn how to program and manage in the App.

Using the Tech App

Install and program a system using the Tech APP.

OTHER PRODUCT COURSES

734N/734N-WIFI Course

The DMP 734/734N allows you to add networked and/or WiFi Access control capabilities to DMP XR Series panels.

738Z Course

The DMP 738Z connects to DMP panels to provide mobile control over lighting, HVAC, doors and more.

CellComSL Installation Course

Learn the best practices for installing the DMP CellComSL.

General Troubleshooting Concepts Course

This course describes strategies for how to troubleshoot a system that is working incorrectly.

ENTRE

Entre Entrance Exams

This is a TWO SECTION exam to test your knowledge of DMP panels and programming to determine if you would be successful with the Entré software. These tests are a prerequisite to attending an Entré Certification Class.

Entre Re-Certification Exams

Entré Access & Security Management Software certification is valid for 1 year. Entré certification must be renewed every year to remain eligible for Entré technical support and the ordering of Entré products by taking these tests.
